

Utility Service to Midway Business Park

October 8, 2015

KUB Utilities On Site

■ Electric

- New substation complete and ready for use
- Joint facility between KUB and TVA

■ Water

- 16-inch water line traverses property
- Constructed in 2005

KUB Utilities to be Extended to Site

- Natural Gas and Wastewater
- Tie into existing facilities at intersection of Asheville Hwy and Carter School Road
- Approximately 2.5 to 3 miles in length

Proposed Wastewater Facilities

- Pump station on Business Park site
- Force main to high point south of Cooper Rd
- Gravity sewer from high point to Asheville Hwy
- Ties into existing 18" gravity sewer trunkline
- Flows to Eastbridge Wastewater Plant
